

Standards and Recommended Practices

Approved SMPTE Recommended Practices

Two SMPTE Recommended Practices were approved by the Society's Executive Committee for Standards Approval: RP 46-1990, Density of Color and Black-and-White Films, Prints and Slides for Television; and RP 130-1990, Dimensions of Tape Splices on 16-mm and 8-mm Type R Motion-Picture Film, Projection Type. These and other SMPTE Recommended Practices may be obtained from Society Headquarters for \$3.00 each.

Approved International Standard

The International Organization for Standardization (ISO)

has approved an International Standard, the technical content of which is published here for your information. ISO 69:1990, Cinematography — 16 mm Motion-Picture and Magnetic Film — Cutting and Perforating Dimensions, is in basic agreement with American National Standards for Motion-Picture Film (16-mm) — Perforated 1R, ANSI/SMPTE 109-1986; and Motion-Picture Film (16-mm) — Perforated 2R, ANSI/SMPTE 110-1986. This material is reproduced with permission from the ISO and is copyrighted by the American National Standards Institute, 1430 Broadway, New York, NY 10018, from which copies are available.

SMPTE Standards Subscription Service

The Society provides a Standards Subscription Service to assist firms, libraries, and individuals in establishing and maintaining a complete and current file of approved American National Standards, SMPTE Recommended Practices, and SMPTE Engineering Guidelines in the motion-picture, television, and video magnetic recording fields. Through this service, the Society makes automatic distribution to standards subscribers of all new and revised standards, recommended practices, and guidelines that are approved during the calendar year in these fields.

For further information, write to: Standards Subscription Service, Engineering Dept., Society of Motion Picture and Television Engineers, 595 West Hartsdale Ave., White Plains, NY 10607.
