# TELECINE 16/35

*Introducing Rangertone's HP1635; A Cost Effective, In-house Film to Video Transfer System.*

The HP 1635 Combination 16/35 mm Telecine film to video transfer system incorporates a rotating prism driven by the film. This allows the film to move in one smooth, continuous flow, eliminating pull-down and shutter bars regardless of the films' condition.

16 and 35 mm format changes are made in a matter of minutes.

- Film to Video Transfer
- Film Editing, Dubbing and Mixing
- Frame By Frame Picture Analysis
- Video Projection
- High Speed Screening

## Books, Booklets, Brochures

**Digital Satellite Communications** offers step-by-step coverage of and detailed guidelines for everything from earth stations to orbital mechanics. This updated, fully-revised second edition presents new design information on VSAT networks and mobile satellite communications, including SCPC and CDMA mobile network concepts and propagation models. It also shows how to control interference in satellite links and features in-depth discussions on the design and analysis of earth station antennas, amplifiers, converters, and control systems. Direct-sequence and frequency-hopping spread spectrum systems are also examined, and explanations are provided for multiple access technologies such as frequency division, time division, and demand assignment multiple access. The 641-page book is available at a cost of \$59.50 from McGraw-Hill Publishing Co., 11 W. 19th St., New York, NY 10011.

**Webster's New World Dictionary of Media and Communications** is a comprehensive collection of over 30,000 definitions of broadcasting, film, recording, and theatrical terms. It defines technical terms and jargon in advertising, exhibitions, graphic arts, marketing, media, public relations, and other communications fields in the U.S., Canada, and the U.K. The book also features phonetic pronunciations, names and locations of major communications companies, industry data, the origin of trade practices, 19th century printing terms that are now used in broadcasting and other fields, and simple explanations of technical processes. The 538-page book can be ordered for \$29.95 from Prentice Hall Trade, 15 Columbus Circle, New York, NY 10023.

**The GE Talaria® MP Large Screen Video Projector** is detailed in a 12-page brochure. The literature provides information on product specifications and features, such as the multiple personality (MP) capability, which allows for interface with up to 16 different video and computer formats. Details about the projector's 15 to 36-kHz operating frequency for comprehensive computer compatibility, digital controls, interchangeable lenses, and programmable operator control unit device are also included. The free brochure can be ordered from GE Projection Display Products Operation, Electronics Park 6-338, P.O. Box 4840, Syracuse, NY 13221.

## IN A HURRY? AUTOMATE TIMING WITH FASTIME.

- Automatically adjusts delay for sync timing up to 1575 Nanoseconds.
- Burst timing automatically adjusted.
- Automatically times 16 channels in less than 60 seconds.
- Delay settings are stored during power failure or maintenance, even if cards are removed from rack.
- Manual fine trim is available on each channel.
- Allows manual selection and timing adjustment of each channel.

Call or write for Application Brochures from Allen Avionics and BAL.
