

Kaleido-K2 'Virtual' Monitor Wall Processor

The Kaleido-K2 multi-image display system redefines signal monitoring by incorporating all conceivable monitor wall features in a single display. Kaleido-K2 turns any standard computer, projection or plasma display into a complete "glass cockpit" for your TV control room or monitoring center.

» **32 Input Capacity**

SDI, HDSDI, VGA, Composite

» **Advanced Audio Display**

AES, Embedded, Analog

» **High-Resolution Quality**

1600x1200 (UXGA)

» **Mission Critical Design**

Front loading, redundant architecture
