

## HIGHLIGHTING SMPTe SUSTAINING MEMBERS

Sustaining members are a vital part of our organization. The financial assistance made by Sustaining Members, helps the Society in pursuing its educational and standardization goals. We highlight these members, as the Society continues to drive the industry forward with their support.

### Amber Technology Ltd.

Amber Technology was founded in 1987 as a specialist distributor of professional audio, broadcast, and video products to service all areas of the Australian market. Since that time, Amber has grown to become recognized as one of Australia's largest and most comprehensive equipment suppliers. In addition to its original market areas, the company has also now established broad market access to such related areas as telecommunications, corporate A/V, and consumer electronics.

Amber Technology is the exclusive Australian distributor for some of the world's leading equipment manufacturers including Alpermann+Velte, Audioaccess, Audioquest, Audio Authority, ASC, AVC, Axium, Canare, Celestion, Channelplus, Christie Digital, Crystal Vision, Dynaudio Acoustics, EVS, Gallery, Imerge, Itelco, KEF, Kustom, Liberty, LiteTouch, Meridian, Microwave Radio Communications, Mitchell Turntables, NEAR, NTI, Neutrik, Otari, Onkyo, Plus, Pro-Bel, PSB, Re'an, RTI, Sigma, Sonance, Soundtracs, Steenbeck Digital, Stereostone, TC Electronics, Teletest, Trilogy, Tube-Tech, Vinten and Weircliffe.

Amber Technology maintains an extensive, nationwide dealer network to provide comprehensive coverage of the entire Australian market.

### JMC Academy

The JMC Academy was established in 1982 to meet the demand for qualified professionals in the dynamic and rapidly growing Creative Arts industry. The Academy has campuses in Sydney and Melbourne, both of which are centrally located within minutes of each of the vibrant cities' business districts. The JMC Academy leads the way in music and entertainment, education, and training and was the first college in Australia to be accredited in the fields of audio engineering, multimedia, and digital television production.

Today, the JMC Academy is Australia's largest entertainment technology training provider and currently offers education to over 1,000 students, 20% of which come from countries all around the globe. The JMC Academy offers certificates, diplomas, advanced diplomas, and degrees in the creative arts. Courses are offered in audio engineering and sound production, digital film and television production, digital media and 3-D animation, music business management, and popular music performance.
