

# CALL FOR PAPERS

## SMPTE 2014 Annual Technical Conference & Exhibition Accepting Technical Paper Abstracts Online Through 20 June 2014

SMPTE has issued a call for papers for the prestigious SMPTE 2014 Annual Technical Conference & Exhibition, 21-23 October in Hollywood, CA. This conference is the premier annual technology event covering current and future developments in media technology, content creation, image and sound, over-the-top (OTT), and the allied arts and sciences.

"The quality, depth, and ingenuity of the papers presented at the Annual Technical Conference consistently make it an essential event for the industry's foremost technology decision makers and thought leaders," said Paul Chapman, program chair of the SMPTE 2014 Annual Technical Conference & Exhibition. "Many of the ideas and solutions presented at the conference will go on to shape the future of our industry."

Proposed papers must be informational and must address technical theory, research, innovation, application, or practice specific to any of the evolving technologies associated with the media technology industry. Technical paper topics include, but are not limited to the following:

- 4K/8K UHD TV and Beyond HD
- Post-Production
- Broadcast Infrastructure, 3G, IP, and File-Based Workflow

2014 ANNUAL TECHNICAL  
CONFERENCE & EXHIBITION  
HOLLYWOOD, CA.  
20-23 October 2014

- Cinematography and Image Acquisition
- Asset Management
- Storage and Archiving
- The "Internet of Everything"
- The Second Screen and Alternative Content
- Audio/video Processing and Compression
- Content Security
- New Techniques in Audio
- Content Distribution
- Display Technology
- Advanced Image Processing
- Mobile, IP, and Future Distribution Technologies
