

Powerful New Mini-Converters

HB-R-HDMI and HB-T-HDMI Signal Extension Over Ethernet

The HB-T-HDMI and HB-R-HDMI offer an easy solution for extending UltraHD or HD HDMI signals over existing Cat5 (or better) cables, utilizing the industry standard HDBaseT protocol. Bi-directional IR and RS-232 for device control is also supported, making these Mini-Converters ideal in a variety of scenarios including: fixed installation AV, digital signage, live events, post production/network/studio environments and on set.

FiDO-4T and FiDO-4R

Fiber Optic 3G-SDI Extenders

FiDO-4T and FiDO-4R extends four individual 3G-SDI signals up to 10km utilizing simplex or duplex LC fiber connectors. This is especially useful in 4K applications where four 3G-SDI connections are needed to carry 4K images.

Mini-Converters

Problem Solved

AJA Mini-Converters offer a complete range of compact, standalone conversion solutions. Advanced video and audio design is combined with the highest standards in reliability, backed by world-class support and a 5-year international warranty. AJA Mini-Converters enable complete 4K, HD and SD conversion and signal processing workflows.
