Shown with the  
DaVinci Resolve Mini Panel

## DaVinci Resolve 14 and DaVinci Resolve control panels let you create amazing feature film looks faster than ever before!

DaVinci Resolve 14 is now up to 10 times faster and features a complete set of creative editing tools, professional color correction, audio post production and multi user collaboration. It only takes a single click to switch between editing, color and audio, so it's like getting 3 applications in one! For ultimate creative control, DaVinci Resolve Micro or Mini panels let you adjust multiple parameters at once to create unique looks that are simply impossible with a mouse!

### Professional Editing

DaVinci Resolve includes virtually every imaginable editing and trimming tool available, making it perfect for both creative and online editing! The new high performance playback engine, which is up to 10x faster, makes playback instantaneous and trimming more responsive than ever, even for processor intensive formats such as H.264.

### Advanced Color Correction

Used on more feature films and television shows than any other system, DaVinci Resolve 14 gives you the industry's highest quality image processing, most powerful primary and secondary correction tools, advanced curve editors, power windows, amazing facial recognition and tracking features, and over 20 new Resolve FX filters!

### Fairlight Audio

DaVinci Resolve 14 features built in Fairlight professional digital audio so you can now work on audio post in the same software you use for editing and color! You get high end mixing, bussing and metering, along with multi channel recording, sample level editing, audio sweetening, effects and more. Plus, you can master to multiple delivery formats at the same time!

### Total Creative Control

Adding a DaVinci Resolve Micro or Mini hardware control panel dramatically expands your creative options because it lets you make multiple adjustments at the same time. Both panels feature professional weighted trackballs, along with precision engineered knobs and buttons that put the most commonly used tools right at your fingertips!
