

POWER FORWARD

Expanded Range and Connectivity from AJA.

New and enhanced solutions for HDR, Multi-Channel HDMI, and Broadcast IP.

HDR

Powerful Tools for HDR

HDR Extends Your Creative Range

AJA offers a powerful suite of tools for HDR production. The FS-HDR extends your HDR and SDR possibilities with real time color transforms and conversions, for a single-master HDR/SDR workflow. The Io® and KONA® Desktop I/O solutions support HDR10 and HLG to HDMI, for HDR in the creative suite. The Hi5-4K-Plus Mini-Converter provides 4K/UltraHD 3G-SDI to HDMI HDR display, and the HAS-4K for 4K/Ultra HDMI to 3G-SDI enables HDR metadata analysis.

IP SMPTE ST 2110

The IP Revolution Gains Speed with SMPTE ST 2110

KONA IP now offers a SMPTE ST 2110 mode for desktop I/O, adding to its 2022-6/7 and TR-01 support for JPEG 2000, ensuring wide compatibility for IP networks.

The new IPR-10G-HDMI is the first in a range of 10 GigE Mini-Converters with ST 2110 support, enabling 2K/HD HDMI output from anywhere on the network.

KONA® HDMI

4K/UltraHD or Multi-Channel HD HDMI Capture

A powerful HDMI capture solution, KONA HDMI supports a range of workflows, including live streaming, events production, broadcast, editorial, VFX, vlogging, video game capture, streaming and more.

KONA HDMI is highly flexible, allowing ingest of up to four 2K/HD 60p sources simultaneously or a single channel of 4K/UltraHD up to 60p.
