

The April 2019 obituary for Dr. Raymond Fielding failed to mention one of his most significant efforts on behalf of SMPTE. In 1967, Dr. Fielding edited *A Technological History of Motion Pictures and Television: An Anthology From the Pages of the Journal of the Society of Motion Picture and Television Engineers*, which was published by the University of California Press. An anthology of papers previously published in the *Journal*, it was described by one reviewer as a “classic text, which appears on virtually every film book reading list” and by another reviewer as a book that was “indispensable to every serious student of the media of mass communication.”
