

Introducing the World's Fastest Editor

DaVinci Resolve 16s new cut page and editor keyboard let you work faster than ever!

The new cut page in DaVinci Resolve 16 is the first major innovation in professional video editing in over 20 years! Designed for short quick turn around projects, the cut page is all about speed. Featuring a streamlined interface with intelligent new "smart" tools, the cut page and DaVinci Resolve Editor Keyboard are designed to save you hours of time on each job.

Work Faster with Dual Timelines

The cut page features dual timelines so you never have to zoom in or out again. The upper timeline shows the entire program while the lower timeline shows the area in which you're working. With the dual timelines you'll always know where you are because you always have a zoomed in timeline that's ideal for trimming and fine tuning your edits using the contextual tools.

Use Source Tape to Quickly Find Shots

Finding the right clip in a bin with hundreds of files is slow. With source tape you no longer have to waste time hunting through bins to find the clip you need. Source tape makes all of the clips in your bin appear in the viewer as a single long "tape." This makes it easy to scrub through all of your shots, find the parts you want, and quickly edit them to the timeline!

Instantly Edit Between Angles with Sync Bin

The sync bin completely revolutionizes multi camera editing! It displays all of the shots from different cameras that are in sync with the current shot in the timeline. You'll see the angles stacked as film strips in the bin, along with a multi-view display in the viewer so you can instantly choose a different angle and make perfectly synced cut aways.

DaVinci Resolve Editor Keyboard

The DaVinci Resolve Editor Keyboard lets you edit with both hands, dramatically speeding up your workflow! It's a professional keyboard with transport controls on the right side and edit functions on the left side. You can use the search dial and source tape buttons with your right hand to locate shots, while simultaneously marking in and out points, performing edits and live trimming with your left hand.

DaVinci Resolve 16	Free
DaVinci Resolve Studio 16	\$299
DaVinci Resolve Editor Keyboard	\$995
