

GAME ON SMPTE 2020

An Immersive, Remote Conference Experience

2020.smpte.org
Tuesday, November 10 - 12, 2020

This year, we will be bringing together our passionate community for a digital event experience that will drive the motion picture, television, and professional media industry forward in a world that's yearning for new ideas and striving for innovation.

As the world turned digital in 2020, the opportunity to deliver the conference to you in a way that rethinks how you can come together for networking and building your savvy proved too good to pass by!

By eliminating traditional barriers to participation such as travel, the cost of accommodations, and scheduling conflicts, this is your SMPTE 2020 regardless of where you live.

This year's theme is "Game On" and spotlights the world of e-sports. Through a full day of programming, we will explore this convergence to understand both the unique and common requirements that make e-sports thrive.

You will be welcomed into an environment that incorporates a main conference hub, meeting rooms, theater space for sessions and the annual awards gala, and an exhibition hall with private meeting space. You can enjoy the flexibility to build a custom conference experience that suits your own schedules and interests, selecting from sessions and activities like:

- **Live technical presentations**
- **Practical hands-on training**
- **Product and technology demonstrations**
- **Peer-group discussions**
- **Virtual panels**
- **Sponsored round table discussions**
- **Networking events, social hours,**
- **Trivia and esports competitions**
- **The opportunity to "Ask the Experts"**
- **A 24-hour exhibition hall with private meeting space**
- **SMPTE Storytellers series**
- **Technical tutorials and training**
- **Programming from SMPTE partners**
- **Bite-sized keynotes**
- **Quick "Standards 101" sessions**
- **Short hot-topic discussions**
- **On-demand access to recorded presentations**
