

# T-TAP<sup>®</sup> | Pro

## Creative Freedom for Remote Production

### Monitor 4K 60p over both 12G-SDI and HDMI 2.0

T-TAP Pro features the latest 12G-SDI and HDMI 2.0 connectivity for up to 4K or UltraHD 60p video monitoring and output over a single cable from your favorite creative applications, including Apple<sup>®</sup> Final Cut Pro, Adobe<sup>®</sup> Premiere Pro and After Effects, Avid<sup>®</sup> Media Composer and ProTools.

Output deep color, high frame rate, HDR and SDR video, all at the highest 10- and 12-bit quality. T-TAP Pro is a compact, silent device that delivers next generation mobile monitoring capabilities to any supported Thunderbolt 3 enabled Mac or PC system.
