

# BRIDGE | LIVE

Live Remote Production,  
Contribution, Collaboration,  
Streaming and Delivery

## New NDI Encoding, Decoding, and Transcoding

BRIDGE LIVE is a broadcast-quality, multi-channel, low-latency turnkey system for HD and UltraHD Remote Production and Collaboration, Contribution, Streaming, and Multi Bit-Rate/Format Delivery. New v1.12 software introduces powerful NDI abilities, including encoding and decoding to/from SDI, and realtime H.264/H.265/MPEG-2/NDI file-to-file transcoding, making BRIDGE LIVE an even more flexible and easy to deploy choice for the most demanding production workflows.

BRIDGE LIVE offers seamless compatibility with top streaming CDN services and more.
